

Grid references in the Gazetteer

Place-names appear below adjacent to their six-figure grid references in the conventional way, the two-letter SO/SJ (approximately the south and north of the county) followed by the 3-figure easting and the 3-figure northing.

To find a place-name

- (a) click somewhere within the file you are looking at
- (b) hold down the CTRL key and then type an 'F' (or the Mac hold down the CMD key and then type 'F')
- (c) this opens a new PDF search window top right (*not to be confused with the very top right Internet search window*)
- (d) enter the characters you want to search for into the PDF search window and type a RETURN
- (e) the screen will display the list at the characters you requested

With acknowledgements to the volunteers who compiled the database at *Shropshire Wildlife Trust* in the 1980s and 1990s.
