

# Community Wildlife Group Areas 2019, Overlain on Shropshire Bird Atlas Map

## Curlew: Breeding Season Distribution (2008-2013)

Group	Area		First Year	Curlew		Participants			
	Survey squares (tetrads)	(sq. kms.)		Breeding Pairs (2019)		% decline since First Year	No. people	Hours	Minutes
				Min	Max				
1 Upper Onny	31.5	125	2004	27	32	31	283	15	
2 Upper Clun	31	110	2007	6	10	60	51	0	
3 Clee Hill	20	80	2012	7	7	46	22	2	
3a Clee Hill (extension)	4 *	16	2019	6	6	n/a	1	30	
4 Rea Valley	25.5	102	2014	9	10	n/a	24	24	
5 Camlad Valley	11 **	44	2014	3	3	n/a	18	25	
6 Strettons area	30	120	2017	5	8	n/a	45	38	
7 Three Parishes	28	107	2017	3	4	n/a	21	10	
8 Tanat to Perry (Oswestry south)	43	172	2018	15	19	n/a	65	10	
9 Severn-Vyrnwy Confluence	27	108	2018	5	6	n/a	20	38	
10 Abdon	16 *	64	2018	8	10	n/a	22	5	
<b>Total</b>	<b>267</b>	<b>1048</b>		<b>94</b>	<b>115</b>		<b>320</b>	<b>17</b>	

Orange highlight = 3 CWGs incorporating "Curlew Country" area (76 tetrads)

\*\* Area also includes 9 tetrads mainly in Wales (Camlad CWG = 20 tetrads), with 2-3 pairs of Curlew

Green highlight = 3 CWGs established in 2018

\* In 2019, Clee Hill took on an additional 4 tetrads to the west, and Abdon took on an additional 7 tetrads to the west and south, to close the gap between the two areas, and cover additional squares with known Curlew territories  
Some CWG areas include part-tetrads, so the total area is a bit less than the numbers of (whole or part) squares X 4
